

C5MI

**CHALLENGE THE PRESENT.
CHANGE THE FUTURE.**

Industry 4.0 Solutions

From the shop floor to the top floor, our solutions connect your physical assets with transactional processes to deliver on the promise of Industry 4.0.

Digital Core

Leverage smart digital solutions to collect real-time data you can trust

Supply Chain Agility and Resilience

Integrate end-to-end planning through your supply chain to improve agility and resilience

Digital Manufacturing

Connect your physical assets to view performance, quality, and inventory at a glance

Digital Asset Management

Monitor your critical assets to predict and prevent unplanned downtime

Partner with C5MI to Build Your Common Operational Picture

The ability to make timely and accurate business decisions is critical to an organization's growth, competitive advantage, and customer experience. A Common Operational Picture (COP) provides a clear, live view of your people, processes, and technology, so that all levels of your organization function according to a singular version of the truth.

The C5MI Approach

Every member of our team has spent their career tackling many of the same challenges you're facing today.

We discover your organization's goals and challenges so that we can deliver the shortest time-to-value solutions.

DISCOVER

Your business goals and opportunities for increased value

DEFINE

Barriers and identify root causes

DESIGN

The right solution to achieve your desired capabilities

DELIVER

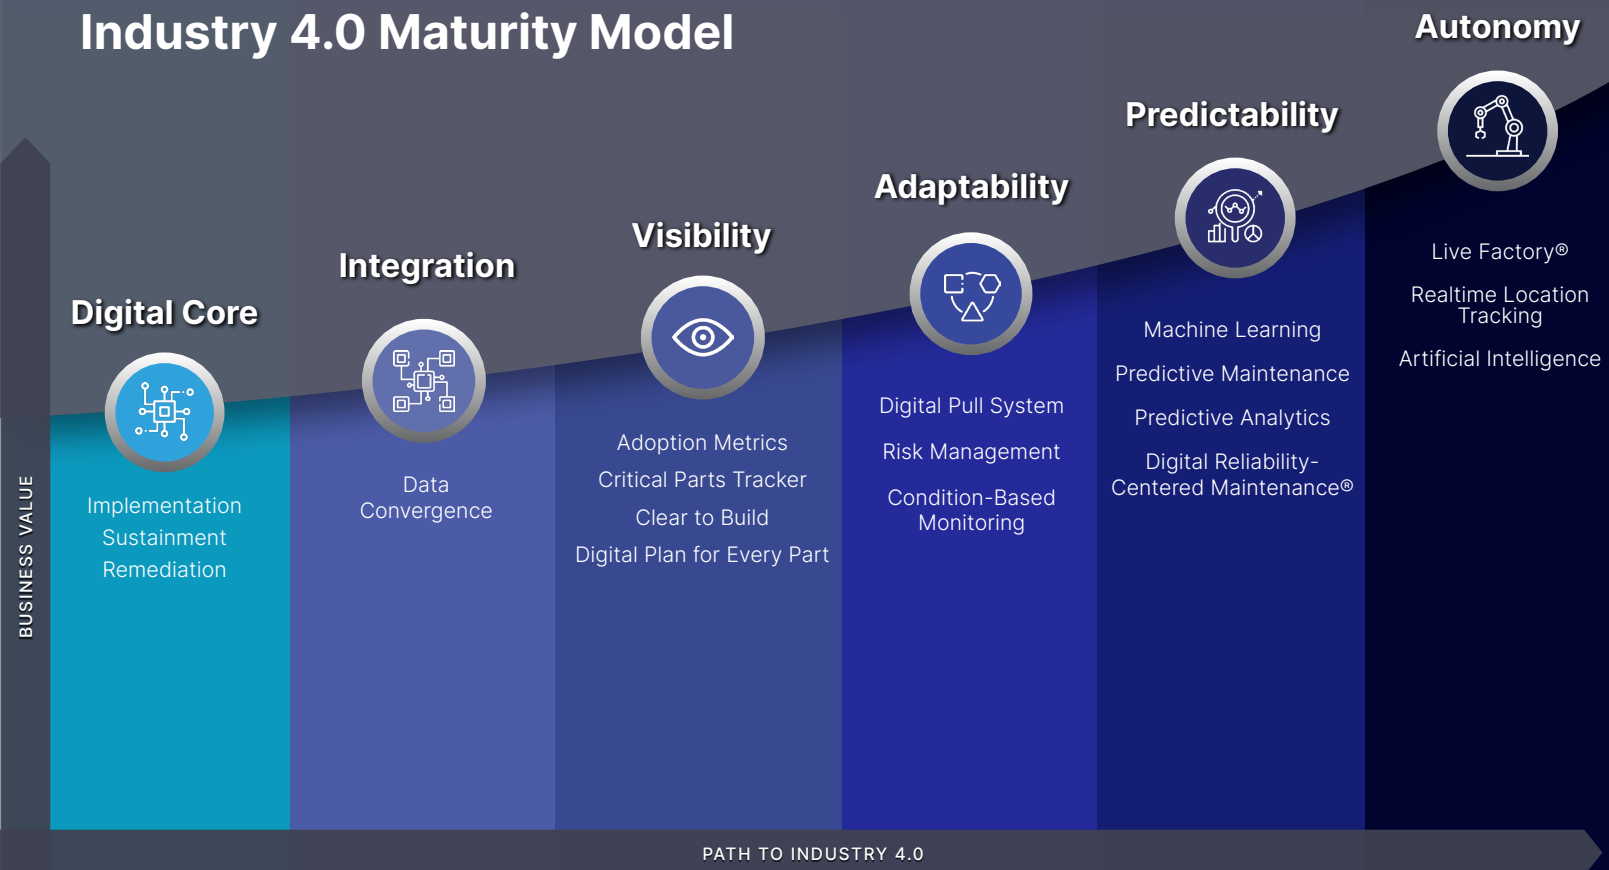

Quick-to-implement solutions that continue to provide value for decades to come
