

C5MI

**CHALLENGE THE PRESENT.
CHANGE THE FUTURE.**

Delivering Sustainable Supply Chain Resiliency

From the warehouse to the executive suite, our solutions connect your inventory with transactional processes to deliver on the promise of supply chain resiliency.

Digital Core

Leverage smart digital solutions to collect real-time data you can trust

Supply Chain Agility and Resilience

Integrate end-to-end planning through your supply chain to improve agility and resilience

Industry 4.0

Connect your physical assets to view performance, quality, and inventory at a glance

Program Management

For continuous successes, program alignment is critical.

Partner with C5MI to Build Your Common Operational Picture

The ability to make timely and accurate business decisions is critical to an organization's growth, competitive advantage, and customer experience. A Common Operational Picture (COP) provides a clear, live view of your people, processes, and technology, so that all levels of your organization function according to a singular version of the truth.

The C5MI Approach

Every member of our team has spent their career tackling many of the same challenges you're facing today.

We discover your organization's goals and challenges so that we can deliver the shortest time-to-value solutions.

DISCOVER

Your business goals and opportunities for increased value

DEFINE

Barriers and identify root causes

DESIGN

The right solution to achieve your desired capabilities

DELIVER

Quick-to-implement solutions that continue to provide value for decades to come

Schedule a call to learn how C5MI can help you leverage technology and improved processes to advance on the maturity model.

www.C5MI.com

The diagram illustrates the C5MI Maturity Model as a staircase with five steps ascending from left to right. Each step is represented by a vertical bar of increasing height and width, with a corresponding icon in a circle above it. The steps are: Digital Core (circuit icon), Integration (network icon), Visibility (eye icon), Adaptability (recycling icon), and Predictability (gears icon). The final step, Autonomy, is shown as a separate platform on the right with a robotic arm icon. The vertical axis is labeled 'BUSINESS VALUE' and the horizontal axis is labeled 'PATH TO AUTONOMY'.
